REVISION

Plan your revision

1 

List the topics

Use the specification or your teacher's checklist.

2 

Rate your confidence

Mark each topic red, amber or green.

3 

Make a timetable

Put red topics first. Include breaks and sleep.

4 

Practise recall

Use flashcards and self-quizzing, not just rereading.

5 

Test yourself

Try past questions under timed conditions.

6 

Review and repeat

Update your ratings, then revisit the weaker topics.

↻ Repeat until your topics turn green
