Sample Gardens news

Winter 2026 | example.co.uk | 01632 960123

A note from Alex

Thank you for another busy year. We finished 38 gardens, from small courtyards to a full community orchard. This winter we are planning ahead for spring, so now is a good time to book a design visit. Our diary for March and April is already filling up, and we would rather talk through your ideas early than rush at the last minute. Here is what is new this season and a few jobs worth doing before the frost arrives.

What is new

Raised bed kits now offered in two sizes.

Winter pruning visits from 1 December.

Job of the month

Clean and oil your tools before storing them for winter.

Drain hoses and outdoor taps.

Customer story

The Old Mill patio: from bare lawn to a sheltered seating area in three weeks.

Seasonal offer

Book a free spring design visit before 31 January 2027 and receive a free soil test. Quote 'newsletter' when you call.
