Remember before you leave

Turn off the heating

Put the bins out

Worked example - a weekend away. Tick what you have packed and add your own items.

How to use this template

Pack from a list and you are far less likely to leave something behind. Use this one as a starting point and add or cross out items to suit your trip.

1. **Fill in the trip details.** Note where you are going and when. Check the weather forecast for your dates and pack to suit.
2. **Tick as you pack.** Lay items out first, then tick each one as it goes in the bag.
3. **Add your own items.** Use the spare boxes at the end of each section.
4. **Do a final check.** Run down the Documents and money section just before you leave.

Tips

- Check your airline or train operator's baggage rules before you pack.
- Keep chargers, medication and anything valuable in your hand luggage.
